The members of the Board are appointed for not more than three business years and step down on the date of the Shareholders' Meeting for the approval of the financial statements for the last business year of their term and may be re-elected.

If the shareholders' meeting has not already done so, the Board of Directors elects the Chairman from amongst its members. The Board may also elect a Deputy-Chairman who replaces him if he is absent or hindered and a Secretary, choosing one who is not necessarily a Board member.

The Board meets on a regular basis and is organised and operates so as to ensure the effective and efficient execution of its own functions. It is properly qualified and has full powers of an ordinary and extraordinary nature, in respect of the applicable laws and regulations in force, the statutory regulations in force and the Company's Rules of Self-Discipline.

The decisions of the Board of Directors are ascertained in the minutes of the meeting, signed by the Chairman and Secretary.

4.1 Appointment and replacement

(ex art. 123 bis, para. 1, subsection I), CLF)

The appointment and replacement of Directors are disciplined by the Corporate By-Laws and the laws and regulations in force on the matter.

Art. 13 of the Corporate By-Laws provides that the members of the Board of Directors are elected on the basis of lists of candidates.

Should there be more than one list, one of the members of the Board of Directors must be from the list which obtained the second highest number of votes.

Only those shareholders who, either individually or together with others, hold a total number of shares with the right to vote representing at least 2.5% of the share capital have the right to submit lists. This percentage of shares may be otherwise established or recalled by the inderogable dispositions of the law or regulatory dispositions.³

Shareholders, and also shareholders linked by control or connection relations pursuant to the Civil Code, may not submit or vote for more than one list, even through an intermediary individual or trust company. Candidates may only be listed on one list, on penalty of being ineligible.

The candidates included in the lists must be listed by progressive number and possess all the suitability requirements provided by the law.

The lists must indicate which of the candidates are in possession of the independence requirements established by the law and regulations in force. The candidate listed as number one in the progressive order must also be in possession of the independence requirements.

The lists which contain three or more candidates must also include candidates of different genders so as to ensure that the composition of the Board of Directors respects that provided by the laws and regulations in force concerning gender equality.

The lists submitted must be deposited at the company headquarters at least twenty-five days prior to the date of the first call of the Shareholders' Meeting and this must be mentioned in the notification of call.

In order to legitimise the submitted lists, an appropriate communication issued by the authorised brokers, proving the ownership of the shareholding in the company determined with regard to the shares registered in the name of the shareholders on the day on which the lists are deposited at the Company, has to be provided to the Company. The communication may also be received subsequently to deposit, as long as it is produced within the deadline laid down for the publication of the lists by the Company.

The declarations in which individual candidates accept their candidatures and certify, under their own responsibility, the possession of the prescribed requirements must be deposited. Candidates who do not observe the above rules shall be deemed ineligible.

The lists are available to the public at the company headquarters, the company website and in the other methods provided by the applicable regulatory dispositions at least twenty-one days prior to the meeting.

The election of the members of the Board of Directors is carried out as follows:

- (i) all but one of the Directors to be elected will be taken from the list obtaining the highest number of votes, on the basis of the progressive order in which the candidates are listed on the list;
- (ii) in compliance with the legal dispositions, one director is elected from the list obtaining the second highest number of votes, who may not be connected in any way, even indirectly, with the shareholders who submitted or voted for the list obtaining the highest number of votes, on the basis of the progressive order in which the candidates are listed in the list.

³ In deliberation 20273 dated 240/01/2018, Consob established that, the lesser quota provided by the Corporate By-Laws holding firm, the shareholding quota required for the submission of lists of candidates for election to the administrative and auditing bodies for MARR must amount to 1.0 %

That outlined above holding firm, in the case in which more than one list has obtained the same number of votes, the majority list shall be considered to all effects to be that voted for by the most shareholders and, in the case of parity, the list deposited first.

The same rules are applicable in the case in which several minority lists have obtained the same number of votes.

For the purposes of dividing the Directors to be elected, lists which obtained a percentage of votes of less than half of that required for the submission of lists shall not be taken into account.

If only one list is submitted, or if the minority lists submitted have not obtained a percentage of votes equal to at least half of that provided in the above paragraph, the members of the Board of Directors will be taken from the only valid list.

Should the laws in force concerning gender equality not have been requested after the above voting and operations, the candidate of the most represented gender elected last in progressive order from the list obtaining the highest number of votes shall be replaced by the first candidate of the less represented gender not elected from the same list according to the progressive order.

Lastly, should this procedure not ensure the respect of the laws in force on gender equality, the replacement shall be made by majority resolution of the Shareholders' Meeting, after the presentation of candidatures from individuals of the less represented gender.

Should the candidates elected by the above methods not ensure the appointment of the minimum number of directors in possession of the requisites of independence foreseen by the applicable laws in relation to the overall number of directors, the non-independent candidate elected last in progressive order from the list obtaining the highest number of votes shall be replaced by the first candidate – in possession of the legal requisites of independence – according to the progressive order not elected from the same list, or otherwise by the first independent candidate according to the progressive order not elected from the other lists, taking into account the number of votes obtained by each list, as long as in respect of the laws in force concerning gender equality.

Should said procedure not ensure that the Board of Directors does not include the minimum number of directors in possession of the legal requisites of independence foreseen by the law, replacement shall be made by resolution of the Shareholders' Meeting with the legal majorities, after presentation of candidatures in possession of said requisites, always in respect of the laws in force concerning gender equality.

If no lists have been presented within the required deadline or no list has been found to be admissible, the Shareholders' Meeting shall proceed, at the Chairman's invitation, to appoint the Directors by resolution passed by the majority of voters, in any case safeguarding the appointment of the minimum number of directors in possession of the legal requisites of independence required by the laws in force at the time and in respect of the laws in force concerning gender equality.

Art. 14 of the Corporate By-Laws establishes that should one or more Directors step down from office during the business year, the procedure pursuant to art. 2386 of the Civil Code will be followed, according to that indicated below:

(i) the Board of Directors will appoint replacements from the names on the list which the Directors no longer in office were included in and the Shareholders' Meeting will reach a decision, with the legal majority required, respecting the same principle;

(ii) should there be no candidates left on the list from which the directors were elected, the Board of Directors will appoint replacements without observing that indicated in point (i) above, and the Shareholders' Meeting will reach a decision on the basis of the majority required by the law.

In any event, the replacement of the board members stepping down is done by the Board of Directors, ensuring the respect of the laws and regulations in force concerning gender equality.

However, should the majority of the Directors appointed by the Shareholders' Meeting resign or step down from office for any other reason, the entire Board of Directors shall be deemed to have resigned and an urgent meeting of the Shareholders' Meeting shall be called for the appointment of

the new Board by the Directors still in office, who in the meantime may carry out everyday management activities.

The Company has not adopted any plans for the succession of the executive directors.

4.2 Composition

(ex art. 123 bis, para. 2, subsection d), CLF)

The Shareholders' Meeting on 28 April 2017 established as 11 the number of members of the Board of Directors and appointed them by voting from lists according to that established by the Corporate By-Laws and in respect of the laws and regulations in force.

Taking into account that only Shareholders who individually or together with others possess shares bearing the right to vote representing at least 1,0% of the share capital have the right to submit lists, two lists were submitted:

- the first was submitted by the majority shareholder "Cremonini S.p.A.", the owner of a total of 33,544,533 shares, amounting to 50.42% of the share capital;
- the second was submitted by a group of minority shareholders owning a total of 2,387,291 shares, amounting to 3.59% of the share capital.

The share capital represented in the shareholders' meeting, and which all voted for the appointment of the directors by selection from lists, amounted to 78.6% of the share capital. The list submitted by the majority shareholder "Cremonini S.p.A." obtained the favourable votes of 52.088% of the share capital in attendance, while that submitted by the group of minority shareholders obtained the favourable votes of 26.453%.

According to that established by the Corporate By-Laws, the lists submitted was deposited at the company headquarters at least twenty-five days prior to the date of the meeting with the relevant communication released by the authorised broker proving ownership of the shareholding in question.

Policies on diversity (ex art. 123-bis paragraph 2, sub. d -bis) TUF)

As described in more detail in point 4.1, the Company envisaged the election to the Board of Directors of the number of members of the less represented gender as per the ratio laid down by the laws in force. Given that this is the second term of office of the Board after 12/08/2012, this ratio is currently 1/3 of the Board members.

The Company has not yet adopted any policies on the topic of diversity with regard to aspects such as age, gender composition and educational and professional background in relation to the composition of the administration and management boards.

The reasons behind this choice are both that already implemented to ensure gender balance on the Board of Directors and also the personal and professional characteristics of each of the members of the Board itself, which enable an adequate and detailed examination of the various matters are normally brought to their attention and the dimensions, structure and reference market of the Company.

Maximum number of positions held in other companies

The Rules of Self-Discipline of the Company establishes the maximum number of management and auditing positions held in other companies that can be considered compatible with the effective performance of the role of Director of the Company.

 - ii) the office of non-executive director or auditor in more than ten of the aforementioned companies.

The offices held in other companies in the MARR Group are excluded from the maximum limit.

The current Board of Directors complies with the above criteria.

Induction Programme

The Chairman of the Board of Directors will ensure that the directors will acquire an adequate knowledge of the sector of business in which the Company operates, corporate dynamics and their evolution, the principles of proper management of risks and the reference regulatory and governance framework, in the most opportune forms, through constant informative updates.

Specifically, during the course of 2017, the Chairman of the Board of Directors, through suitable communications attraverso le rispettive funzioni aziendali di riferimento and during Board meetings, reported and updated the Directors on the following, among others:

- studies and detailed information taken from the national press concerning the reference market;
- novelties in the reference regulatory framework.

The Chairman, assisted by the Investor Relator, also organized a visit to an operational branch for the Directors after their appointment.

4.3 Role of the Board of Directors

(ex art. 123 bis, para. 2, subsection d), CLF)

Board meetings

The regular holding of board meetings is ensured by the provision that there should be at least four meeting each year. The annual calendar of corporate events, with the planned dates for the meetings for the approval of the draft financial statements, the half-yearly financial report and the interim reports, is notified to the stock market within 30 days of the start of the year and is available on the company website.

The Board of Directors held 7 meetings during the course of 2017. 2 meetings have already been held since the beginning of 2018, including that for the approval of the annual financial report as at 31 December 2017 and of this Report. The meetings lasted for an average of about one hour.

Participation in the meetings of the Board of Directors by the Directors has always been very good, as shown by the percentages of attendance (see annex A subsection a).

Using electronic mail, the Chairman and the Chief Executive Officer provide all the documentation and information required for decision-making purposes to the members of the Board in a timely

manner. The deadline of 3 days is usually deemed adequate for sending documentation; this deadline is generally respected, except in cases of urgency.

The Investor Relator Mr. Antonio Tiso attended the meetings of the Board related to the approval of Annual Report and Financial half year report and interim report.

Functions of the Board

In fulfilment of point 1.3, subsection a) of the Company's Code Rules of Self-Discipline, the Board examines and approves the strategic, industrial and financial plans of the Company and the Group, periodically monitoring their implementation, and defines the Company's corporate governance system and Group structure.

The Board of Directors has judged the organisational, administrative and accounting set-up of the Company to be adequate, with specific reference to the system of internal auditing and risk management.

Lastly, the matters not delegable pursuant to art. 2831 of the Civil Code and the laws in force are the exclusive responsibility of the Board of Directors.

In addition, in the framework of the duties assigned to it by the Rules of Self-discipline, the Board:

- assesses the general performance, taking into particular attention to the information received from the Chief Executive Officer and periodically comparing the results achieved with those planned.
- decides about the transactions of the Company and its subsidiaries if such transactions have a significant strategic, economic, equity or financial relevance to the Company itself.

The Board of Directors has laid down certain limits to the powers of the Chief Executive Officer as regards the execution of transactions of significant strategic, economic, equity or financial relevance (see the following chapter); it has also adopted a suitable internal procedure for the transactions with related party (see the relevant chapter).

As required by the Rules, in its meeting on 14 November 2017, the Board of Directors performed an assessment of the functioning, dimensions and composition of the Board itself and its committees, expressing a positive opinion in this regard.

This assessment was conducted using some parameters as a reference point such as the number of Board members, the presence of non-executive and independent Directors, the number of meetings held during the year and the index of attendances, comparing them with the average figures for listed companies belonging to "FTSE MID CAP" index and all the "non-financial" listed companies. The assessment of the functioning of the Board and its Committees was also made on the basis of subjective considerations shared by the Board itself.

The Shareholders' Meeting did not generally or preventively authorise any derogations to the ban on competition provided by art. 2390 of the Civil Code.

4.4 Executive Bodies

The Chief Executive Officer

Pursuant to art. 21 of the Corporate By-Laws, the Board of Directors may delegate, within the limits laid down by the law, part of its duties and powers, including that of corporate signature, to one or more of its members with the qualification of Chief Executive Officer, determining the contents, limits and methods of exercising the proxy.

During the 2017 business year, the Chief Executive Officer exercised the powers conferred upon them for everyday management, while significant transactions in terms of quality or value were submitted for examination by the Board of Directors.

Pursuant to art. 4.2 of the Company's Rules of self-discipline, the Chief Executive Officer was also attributed the following roles and responsibilities, which were punctually carried out during the business year:

- a) ensuring the timely and valid formulation of objectives, strategies, macro-organisational choices and policies for the expansion, conduction and management of the Company in the areas of those competence and for the purpose of assessment and decision-making by the Board of Directors;
- b) reporting to the Board of Directors on the expansion, conduction and management of the Company, More specifically, he is responsible for the results achieved, on the basis of the approved objectives, strategies and policies.

Pursuant to art. 2.10 of the Company's Rules of Self-Discipline, the Chief Executive Officer is not a director in another listed company not belonging to the same group, of which the Chief Executive Officer is a director of the Company.

The Chairman of the Board of Directors

The Corporate By-Laws provide that the Board should elect a Chairman from among its members should the Shareholders' Meeting not already have done so.

Powers of legal representation of the Company are conferred upon the Chairman of the Board of Directors.

The Shareholders' Meeting on 28 April 2017 appointed Mr. Paolo Ferrari as Chairman of the Board of Directors.

The Chairman, who has the powers provided by the Civil Code, the Corporate By-Laws and the Code, usually presides over:

- the meetings of the Board of Directors, which he calls, ensuring that all the members receive with adequate notice all the documentation and information required to enable them to express themselves knowledgably and with awareness on the items on the agenda;
- the Shareholders' Meeting, also exercising the wide-ranging powers conferred by the Assembly Regulations to ensure that meetings are held properly and correctly.

Informing the Board

Within the context of his own responsibilities, the Chief Executive Officer has periodically informed the Board of the activities carried out in exercising the proxies attributed to them. He also provided detailed information to the Directors and Auditors, in compliance with the laws in force and the Corporate By-Laws, on the activities carried out, the general management performance and outlook, and also on the transactions deemed most significant from an economic, financial and equity viewpoint carried out by the Company or by its subsidiaries, on at least a quarterly basis.

4.5 Other executive directors

Mr. Pierpaolo Rossi, appointed by the Shareholders' Meeting on 28 April 2017, is the Manager of the Administration and Finance Department of the Company and also the Manager responsible for the preparation of the company accounts documents. On the same date, the Board of Directors conferred upon Mr. Pierpaolo Rossi certain powers concerning his office.

4.6 Independent Directors

The non-executive and independent members of the Board of Directors are such, in terms of number and authority, as to ensure they have a significant say in the decisions made by the Board. In the absence of any objective indications in the Code, this consideration is supported by the fact that the number of independent directors, pari a quattro, is more than that required by the Instructions for the Regulation of the Stock Markets organised and managed by Borsa Italiana S.p.A. for the STAR segment ("Segmento Titoli Alti Requisiti", high requirement shares segment), which establishes that 3 independent directors are adequate if the Board has between 9 and 14 members.

In compliance with that prescribed by the Rules of Self-Discipline, the independence of the directors Messrs Marinella Monterumisi, Alessandro Nova, Ugo Ravanelli e Rossella Schiavini was assessed in the first meeting after their appointment by the Board of Directors, held on 28 April 2017, and in the meetings on 14 March 2018. The assessments were made on the basis of the information provided by the interested parties or in any case available to the Company, using the criteria of independence provided by art. 148 of the CLF and art. 3 of the Code.

In particular, it should be noted that, on the basis of the prevalence of substance over form, the Board of Directors deemed that Mr. Ugo Ravanelli should be classed as independent, although he was included in the hypotheses envisaged by subsections b), d) and e) of applicative criterion 3.C.1 of the Code of Self-Governance, for the following main reasons:

- he has elevated and consolidated ethical and professional qualities, enabling him to express fully independent opinions;
- his experience and knowledge acquired provide an important set of skills for the company.

The Board of Statutory Auditors ascertained the correct application of the assessment criteria and procedures adopted by the Board in assessing the independence of its members.

During the course of 2017, the independent directors met once in the absence of the other directors. The meeting concerned the following:

1. considerations regarding corporate governance;
2. considerations regarding the eventual need for more detailed discussions on specific management or business matters;
3. considerations regarding the current remuneration policy, specifically concerning the variable remuneration component for the Executive Directors with strategic responsibilities;
4. decision as regards the preparation of suitable "regulations" for the Control and Risk Committee and the Remuneration and Nomination Committee.

In compliance with art. 13, paragraph 2 of the Corporate By-Laws, the loss of the independence requirements by a director does not constitute a reason to step down should the minimum number of components, as provided by the laws in force, in possession of the legal independence requirements remain in office.

4.7 Lead Independent Director

Given that the Chairman is not the main person responsible for the management of business activities, nor the person controlling the Company, it was not necessary to appoint a Lead independent director, as provided by art. 2.8 of the Corporate Governance Code of the Company.

5. PROCESSING OF CORPORATE INFORMATION

Since 2005, the Company adopted an “Internal regulation for the management and processing of confidential information and the external communication of privileged documents and information”.

During the course of 2016 the Internal Regulation was updated by the Board of Directors also in order to acknowledge what is regulated by Regulation (EU) 596/2014 and Implementing Regulation (EU) 2016/1055.

By deliberation dated 20 February 2018, the Board of Directors approved the new “Procedure for the management of inside and confidential information” (hereinafter “Inside information procedure”), modifying and replacing the following documents previously in force:

- “Internal regulation for the management and processing of confidential information and for the external notification of inside documents and information”;
- “Regulation for the management of the list of people with access to inside information ex art. 18 of EU Regulation no. 596/2014”.

In accordance with that indicated in the Code, the Inside information procedure provides that the management of confidential information concerning the Company should be the responsibility of the Chief Executive Officer.

Confidential information concerning single subsidiary companies is the responsibility of their respective directors, who may only divulge such information in agreement with the Chairman and the Chief Executive Officer of MARR.

All relations with the press and other media, as well as with financial analysts and institutional investors, involving documents and confidential information, particularly with regard to the privileged information, concerning the Company and / or its subsidiaries may be made only by agreement with the Chairman and / or Chief Executive Officer of the Company, in compliance with the provisions and procedures laid down in the Inside information procedure.

This procedure is available on the Company website www.marr.it, in the corporate governance section.

6. INTERNAL COMMITTEES OF THE BOARD

Pursuant to the Company's Rules of self-discipline, the Directors must abstain from participating in the meetings of the Committee in which proposals to the Board concerning their remuneration are formulated.

Pursuant to that established by the Company's Rules of self-discipline, the Remuneration Committee:

The Remuneration Policy has been updated several times in recent years; the last update was made by deliberation of the Board of Directors on 14 November 2017.

The Remuneration Policy provides the following criteria for the executive directors and the managers with strategic responsibilities, consistently with that stated in the Code:

There are no agreements between the Company and the Directors providing for indemnities in the case of resignation, revocation or dismissal without just cause or if their working relations cease following a public purchase bid.

The Corporate Governance Code of the Company also provides that, whenever an executive director or general manager steps down from office and/or ends their employment relations, it makes known, after the internal processes leading to the attribution or recognition of indemnities and/or other benefits, detailed information in this regard, through a notification diffused to the market which includes the information and indications of which in applicative criterion 6.C.8. of the Code of Corporate Governance.

10. INTERNAL AUDITING AND RISK MANAGEMENT SYSTEM

The Company's internal auditing system is the rules, procedures and organisational structures that enable the proper and correct management of the company through an adequate process of identification, measurement, management and monitoring of the main risks and consistently with the objective defined by the Board of Directors, promoting aware decisions.

The internal auditing system contributes towards ensuring:

- the safeguarding of the corporate equity;
- the effectiveness and efficiency of corporate process;
- the reliability of I information provided to Corporate Bodies and the Market;
- the respect of laws and regulations and also of the Corporate by-laws and the internal procedures.

In its meeting on 11 March 2018, the Board of Directors approved a new integrated risk management model (Enterprise Risk Management) thereby updating the guidelines for the internal auditing system, which were originally defined by the Board in its meetings on 10 November 2005 and on 11 November 2009, to ensure that the main risks concerning the Company are properly identified and adequately measured, managed and monitored, and also determined the criteria for the compatibility of these risks with the proper and correct management of business activities.

In the meeting on 14 November 2017, the Board of Directors, with the assistance of the Control and Risk Committee, assessed the adequacy, effectiveness and effective functioning of the internal auditing system, expressing a positive opinion in this regard. The assessment concerned the aspects involving the greatest risks to the company, the corporate bodies responsible for managing and monitoring each risk and the structure of activities.

10.1 Information concerning the system of risk management and internal auditing in relation to the process of financial information

(ex art. 123 bis, para. 2 subsection b), CLF)

1. Introduction

The system of risk management should not be considered separately from the internal auditing system in relation to the process of financial information, in as much as they both constitute elements of the same system.

This system is aimed at ensuring the truthfulness, accuracy, reliability and punctuality of I information provided to the Corporate Bodies and the financial markets.

In fulfilment of paragraph 3 of art. 154 bis of the CLF, the Manager responsible for preparing the company's financial reports has prepared adequate management and accounting procedures for the drafting of the annual and consolidated financial statements and all other financial communications.

The above-mentioned procedures have been implemented on the basis of the Internal Control – Integrated Framework model issued by the Committee of Sponsoring Organizations of the Treadway Commission (CoSO Report), which is the reference model generally accepted at an international level.

2. Description of the main characteristics of the risk management and internal auditing system in relation to the process of financial information

a. Existing phases of the risk management and internal auditing system in relation to the process of financial information

The model provides for the identification of those risks which could compromise the effectiveness and efficiency of the processes, the reliability of economic and financial information and the respect of laws and regulations, and subsequently the identification of the activities aimed at reducing these risks.

The risks concerning economic and financial information identified by the Company concern the following categories:

- The existence and occurrence of events: assets, liabilities and the title of ownership exist on a given date. The transactions registered represent events which actually occurred during a given period.
- Completeness: all the transactions and other events and circumstances occurring during a given period, or which should have been reported in this period, are registered once and once only.
- Assessment/Reporting: the assets, liabilities, revenues and costs are accounted for the correct amount in compliance with the appropriate and pertinent accounting principles. The transactions are mathematically exact, correctly summarised, registered in the accounts books and documented.
- Rights and Obligations: the assets recorded in the financial statements derive from an acquired right, and all ongoing obligations must be reflected in the liabilities.
- Presentation and Information: the information contained in the financial statements is correctly described and classified. There is an internal coherence of all the components of the financial statements.

The Company has formalised some auditing activities aimed at reducing the aforementioned risks in the context of significant processes. The significant processes are those involving the management of transactions significant in terms of accounting in a significant area of the financial statements and the framework for the definition of these areas and processes is reviewed annually. The following have been identified as significant processes:

- liabilities cycle;
- assets cycle;
- warehouse inventory;
- closure of financial statements and consolidation.

In addition to this, the complexity of the area of the financial statements in question is assessed with reference to its contents, the organisational aspects, information system and the inherent risk.

In particular, the assessment of the risk inherent to the area in question is conducted in consideration of the following factors:

- whether it is susceptible to errors or has recently been rectified;
- whether it is due to the application of complex or recently modified accounting principles;
- whether it is characterised by complex transactions such as to require the intervention of an expert to assess it;

- whether it includes assessments which are the result of estimates characterised by a high level of subjectivity;
- whether it concerns corporate assets subject to theft, loss or undue appropriation;
- whether it refers to complex or anomalous transactions undertaken in proximity of the end of the business year;
- whether it summarises transactions that are not included in ordinary processing.

The auditing activities ordinarily conducted by personnel at various organisational levels include the following:

- Analyses by top management: the performance levels achieved are compared to the budget, forecasts, results achieved in previous periods and the concurrent results. To the extent that these activities are used to verify the unexpected results highlighted by the accounting system, they contribute towards the auditing of the economic and financial information system;
- Auditing of transactions: this is conducted to verify the completeness, accuracy and authorisation for insertion into the accounting system of transactions managed in corporate processes and relevant personal details in the reference archives;
- Auditing of information systems: the wide-ranging reliance placed on information systems, especially in relation to the processing of economic and financial information, means that they need to be kept under control. The auditing of information systems concerns the development and maintenance of applicative software, the protection of access, the activities of operators, back-up procedures, safety plans, etc.;
- Physical checks: equipment, stocks, securities, cash and other assets are physically protected and periodically inventoried and compared to the accounts;
- Separation of duties: in order to reduce the risk of errors or irregularities, these duties are divided between several people. For example, the authorisations for transactions, their accounting and the management of the corresponding assets must be carried out by different people;
- Policies and procedures: auditing activities are usually based on policies and procedures formalised and divulged within the company.

The model provides for the predisposition of adequate flows of information among the subjects involved in the internal auditing system. In this specific case, the communication of procedures to those involved, the exchange of information among those with a role in the corporate governance model, reporting on the status of progress of any enhancements to the auditing system and reporting on any anomalies that may be found in monitoring activities.

Lastly, the model provides for the performance of verifications as to the effective application of the procedures and, in particular, the auditing of the above through the performance of specifically identified tests on an ongoing basis throughout the business year.

On conclusion of this process, the outcome of the auditing activities is reported to the Manager responsible for preparing the corporate accounting documents, and by the latter to the Chief Executive Officer.

b. Roles and functions

The proper functioning of the system requires the identification of specific roles to which the various phases are assigned. Specifically, the planning phase is the competence of the Manager responsible for preparing the company's financial reports and shared with the Chief Executive Officer. The

subsequent phases of implementation, monitoring and updating of the system over time, if required, are managed by the Manager responsible with the involvement of the internal audit department.

10.2 Director responsible for the internal auditing and risk management system

In the Company's Rules of self-discipline, the Board of Directors has provided that the role of "Director responsible for the internal auditing and risk management system" be filled by an executive director. This role is currently filled by the Chief Executive Officer Mr. Francesco Ospitali.

Pursuant to the Company's Rules of self-discipline, the Director responsible for the internal auditing and risk management system:

- e) reports in a timely manner to the Control and Risk Committee (or Board of Directors) as regards problems and criticalities that arise during the performance of their activities or which they otherwise become aware of, so that the Committee (or Board) can take the necessary action.

10.3 Manager responsible for the internal audit department

On 20 February 2018, the Board of Directors, on proposal by the Director responsible for the internal auditing and risk management system, and with the favourable opinion of the Control and Risk Committee and having heard the Board of Auditors, appointed Mr. Loris Piscaglia as Manager of the Internal Audit Department to replace Mr. Fabrizio Paganelli.

The Manager responsible for the internal audit department is not responsible for any operating area, does not respond hierarchically to any manager of an operating area and performs his duties in complete independence.

Taking the characteristics and dimensions of the Company into account, the Manager responsible for the internal audit department:

- a) verifies the operating and suitability of the internal auditing and risk management system, both on a continuing basis and in relation to specific requirements and in respect of the international standards;
- b) has direct access to all information useful to the performance of his duties;

After hearing the opinion of the Control and Risk Committee, the Board of Statutory Auditors and the manager of the internal audit and risk management department, the Board of Directors approves, on at least an annual basis, the plan of works prepared by the Manager of the internal audit department and the activities carried out by same.

The principal verification activities of the Manager of the internal audit department concerned the following risk areas:

- health and environmental regulations;
- regulations concerning safety in the workplace;
- corporate and fiscal regulations;
- reliability of the economic and financial information;
- fulfilments concerning Legislative Decree 231/2001 and the implementation of the Organisational Model;
- transactions with related parties;
- IT security.

10.4 Organisational Model ex Legislative Decree 231/2001

The Company and its operating subsidiaries have adopted an organisational, management and control model pursuant to Legislative Decree 231/2001 (hereinafter also the "Organisational Model").

The MARR Organisational Model:

- a) identifies the activities in the context of which the crimes provided by the above-mentioned Decree may be committed;
- b) provides for specific protocols aimed at planning the drafting and implementation of Company decisions in terms of crimes to be prevented;
- c) identifies the methods of managing financial resources in such a way as to prevent crimes from being committed;
- d) provides obligations in terms of information to the body responsible for supervising the functioning and observance of the model;
- e) introduces a disciplinary system aimed at sanctioning the failure to respect the measures indicated in the model.

The Organisational Model has been periodically updated and integrated by the Board of Directors in order to adjust its contents to the regulatory dispositions introduced subsequently to the adoption of the Model.

During the course of 2017, the Board of Directors integrated the Organizational Model in order to modify the composition of the Supervisory Board (hereinafter also "SB") and to acknowledge the

new criminal circumstance concerning corporate crimes, and specifically the instigation of corruption among individuals (art. 2365 bis of the Civil Code).

On 20 February 2018, the Board of Directors further integrated the Organizational Model by inserting:

- crimes concerning the employment of nationals of third party countries staying in the country illegally; dispositions against illegal immigration;
- crimes of a racist and xenophobic nature;
- some dispositions concerning the protection of those who report crimes or irregularities that they have become aware of during their own employment relations.

The following are the crimes the model intends to prevent:

- Crimes against Public Administrations and against the heritage of Public Administrations;
- IT crimes and illegal data processing;
- Organised crime activities;
- Crimes concerning the circulation of false currency, public credit cards, stamp duty and recognition instruments or marks;

The Company has not yet adopted any policies on the topic of diversity with regard to aspects such as age, gender composition and educational and professional background in relation to the composition of the auditing body.

The reasons behind this choice are both that already implemented to ensure gender balance on the Board of Auditors and also the personal and professional characteristics of each of the members of the Board itself, which enable an adequate and detailed examination of the various matters are

normally brought to their attention and the dimensions, structure and reference market of the Company.

Legitimacy to attend Shareholders' Meeting and the right to cast votes is attested by a communication addressed to the Company, made by the broker, in compliance with their own accounting documents, in favour of those who have the right to vote.

This communication is made by the broker on the basis of the findings at the end of the accounting day of the seventh day of market trading prior to the date established for the Shareholders' Meeting . Credit and debit registrations made in the accounts subsequently to said deadline do not affect the legitimacy to exercise voting rights in the Shareholders' Meeting .

The communication must be received by the Company within the deadlines provided by the applicable regulations. Legitimacy to attend and vote holds firm should the communication be received after the deadline, as long as it is received before the start of the Shareholders' Meeting proceedings.

The electronic dispatch of proxies may be done using electronic mail, according to the methods indicated in the notification of call for the Shareholders' Meeting.

In order to encourage and facilitate the best possible attendance of Shareholders' Meeting by the shareholders, the Board of Directors is extremely careful in choosing the date, place and time of the meetings.

As far as possible, all the Directors and Statutory Auditors, and in particular the Directors who, on the basis of their duties, may make a useful contribution to the general proceedings, attend the meetings.

In 2005, the Company adopted a set of "Regulations for Shareholders' Meetings" which discipline the orderly and functional proceeding of ordinary and extraordinary Shareholders' Meeting of the Company, guaranteeing the right of each Shareholder to take the floor for the items on the agenda and to express their own opinions. The Regulations are available on the Company website, in the Corporate Governance section.

The Regulations for Shareholders' Meetings state that the Chairman establishes the methods of requesting interventions and the order of the interventions.

The Chairman, and, on invitation, those assisting him, respond to the speakers at the end of their interventions on the items to be discussed, or after each intervention.

Those requesting the floor have the right to a brief response.

Taking the scope and significance of the items included in the agenda into account, and also the number of people requesting the floor, the Chairman determines the duration of interventions and responses in advance, in order to ensure that the meeting may conclude its discussions in one meeting.

The Chairman asks speakers to finish before the expiry of the timeframe for their interventions or responses.

Once the interventions, replies and responses are finished, the Chairman declares the meeting closed.
